Front-End Developer / JavaScript Developer / React/Vue Developer

CAREER OBJECTIVE

As a passionate and dedicated Frontend Developer, I am on a relentless pursuit to craft visually stunning and highly functional user interfaces. With a proven track record in developing responsive web applications, I thrive on turning complex design concepts into seamless digital experiences. My expertise lies in merging creativity with technical prowess, and I am eager to bring my skills to a dynamic team where collaboration and innovation are at the forefront. I am excited to contribute to groundbreaking projects that push the boundaries of web development.

HARD SKILLS

- Languages: HTML5, CSS, SCSS, JavaScript (ES5, ES6+);
- Libraries: React.js + Redux, Bootstrap and others;
- Frameworks: Vue.js, AngularJS;
- Package Managers: NPM, Yarn;
- Project build: Vite;
- Version control systems: Git, Github.
- **Additional skills:**
 - Work with Figma layouts;
 - Understanding how RESTful APIs work;
 - Worked with Postman, Node.js;
 - Worked with MySQL;
 - Understanding of the SOLID principle in OOP.

EXPERIENCE

Internship in Movey company | January 2024 – June 2024

- Developed interactive landing pages using JavaScript.
- Developed an intuitive interface for an online clothing store using Jave Script.
- Implemented animations and effects for enhanced visual appeal.
- Translated design concepts into responsive and interactive web pages using media queries and flexible grid systems to guarantee a smooth user experience across various devices and screen sizes.
- Prioritized mobile responsiveness by employing a mobile-first approach during the development process.
- Optimized resource loading and improved performance.

Freelance | January 2023 - ...

- Developed interactive and responsive landing pages using React/Redux, React Hooks, React-router.
- Developed reusable ReactJS components, improving code manageability and reusability.
- Developed a responsive personal diary application with ability to add, view and delete entries using React.
- Developed web page for interior design agency with sorting and selection capabilities using Vue.js.
- Integrated with APIs for dynamic content loading.
- Created a weather forecasting application with integrated weather API to fetch and display accurate forecasts and geolocation features for automatic location detection.
- Conducted performance optimization by minifying and compressing assets, reducing server requests, and optimizing image assets.
- Ensured efficient loading times to enhance user satisfaction and search engine rankings.
- Implemented drag-and-drop functionality for seamless task organization.

SOFT SKILLS

- Analytical thinking;
- Problem-solving skills;
- Teamwork, communicative;
- Excellent organization and planning, time-management skills;
- Attention to details.

LANGUAGES

- Russian (native);
- Ukrainian (native);
- English (native);
- Spanish (fluent);
- French (elementary).

EDUCATION

- **Kharkiv National University of Economics**
Finance, Specialist (2006-2011)
Kharkiv, Ukraine
- **Yaroslav Mudryi National Law University**
Law, Specialist (2007-2013)
